Career Objective

As a passionate and detail-oriented front-end developer, my goal is to leverage my skills in HTML, CSS, JavaScript, and modern frameworks like React and Nextjs to create dynamic, user-friendly web applications. I am dedicated to enhancing the user experience through intuitive interfaces, responsive designs, and efficient coding practices. My aim is to contribute to a collaborative and cross-functional development team while continuously learning and staying updated with emerging front-end technologies to deliver high-quality, scalable solutions that meet both user needs and business objectives. I am excited to grow professionally and contribute to innovative projects in a forward-thinking organization.

Experience

Mid-level Frontend Developer: RevelTek Inc   **December 2024 – till date**

- ❖ Contribute to the development of the business' software applications and overseeing the latest processes and technology to build scalable, distributed, and fault-tolerant software systems.
- ❖ Ensure application of usability principles and procedures as defined by UX/UI input.
- ❖ Take and emphasize a consumer-focused approach in building applications and working with front-end team members in determining the prioritization and estimation of new features and improvements.
- ❖ Design and review code inclusive of efficient and reusable front-end infrastructure and components.
- ❖ Work within the frontend team in building elegant and sophisticated user interfaces. Interact and engage with product team in understanding the needs of the users, availing insights that ultimately lead to an increased positive impact on end-user experience.
- ❖ Collaborate with backend developers in building features and efficiencies for the realization of the anticipated product.
- ❖ Research and evaluate new methodologies and technologies that improve the quality, reliability, and performance of the frontend team's software development systems and processes.

Associate Frontend Developer: DECAGON INSTITUTE   **March 2022 – December 2024**

- ❖ Collaborate with the development team to understand project requirements and design web solutions.
- ❖ Write clean, efficient, and well-structured code using HTML, CSS, Typescript, and Javascript (as well as Javascript frameworks like React and Next.js).
- ❖ Assist in the development and implementation of responsive and user-friendly web interfaces.
- ❖ Integrate frontend designs and backend functionality using appropriate technologies.
- ❖ Assist in website maintenance, updates, and enhancements.

- ❖ Assist in code testing and debugging to ensure seamless functionality.
- ❖ Collaborate with cross-functional teams to deliver projects on time and within scope.
- ❖ Document technical specifications, project details, and development processes.
- ❖ Optimize application for maximum speed and scalability.
- ❖ Ensure that all user input is validated before submitting to the backend.
- ❖ Participate in code reviews and contribute to team knowledge sharing.
- ❖ Connector, working assiduously to ensure people and projects are not inadvertently siloed or silenced.
- ❖ Stay up-to-date with industry trends and emerging web development technologies.

Web Development Intern: UDACITY INC.   **April 2021 – March 2022**

- ❖ Contribute to the development of software applications and improvement of user experience (UI/UX).
- ❖ Involvement in brainstorming with other developers and code debugging in a cross-functional team.
- ❖ Participated in the optimization of single-paged application and search engine optimization (SEO).

Projects

NEXT WILD OASIS: *https://github.com/ugochukwuSylva/Next-wild-oasis*

- ❖ A hospitality application that enables guest/user to book their favorite hotel cabin.
- ❖ Features Google authentication to manage signing in and signing out of the application.
- ❖ Leveraged on new hooks currently available in React 19 and Nextjs 14, hence, facilitating the development of optimized application. Hooks like use, useOptimistic, useTransition, useFormStatus and a host of other hooks was leveraged upon. The advent of these hooks have made web development a breeze.

FAST-REACT-PIZZA: *https://github.com/ugochukwuSylva/fast-react-pizza*

- ❖ An application that helps you place an order for tasty pizza with variety of recipes.
- ❖ Styled with Tailwind CSS

OTHER PROJECTS ON MY GITHUB REPO: *https://github.com/ugochukwuSylva*

Technical Skills

Languages: HTML, CSS, Javascript, Typescript.
Frameworks: React, NextJs.
Developer Tools: Git, Github, VS Code, React DevTools, Redux DevTools.
Database: Supabase

Education

University of Benin (UNIBEN)   **October 2015 – November 2018**
Bachelor of Science (B.Sc) – Accounting,
Honor: Second Class Upper (2.1)
